AMENDMENTS TO THE SPECIFICATION

Please amend the paragraph beginning on page 6, line 25 as follows:

25   When the focus buoys are displayed, an alternative consists in ~~shacking~~ <u>shaking</u>

~~again~~ the mouse <u>again</u> to remove the buoys when the user ~~wants~~ no longer <u>wants to</u>

~~have~~ the buoys displayed. It is therefore checked whether the mouse is again

~~shaked~~ <u>shaken</u> (step 52) and if so, the buoys are removed from the screen (step 54).

After removing the buoys or if the mouse is not ~~shaked~~ <u>shaken</u> again, the process

30   loops back to the beginning.
